

## Insurance Women of Downeast Maine

Hello Ladies!

November already! Can you believe it? Thanksgiving, Christmas, New Year .... It happens so quickly. Our association is back in full swing.

We started our monthly meetings in September. Laurel and Michelle joined our meeting. It was nice to have their opinions and thoughts at the local and national level.

As everyone is aware, October is breast cancer awareness month. Charlene from the Maine Coast Memorial Hospital came to our meeting and shared her knowledge and wealth of information with us about mammograms. Charlene is a mammography technician and has over 30 years experience. It was a pleasure having her.

We will be donating non-perishable food items to the local food pantry and collecting items to send to the troops at the beginning of the year.

We are off to a great start!

Respectfully submitted,

Tiffany E.M. Butler, President
